

Bremerton Trap and Skeet Club

is having a registered shoot.

May 20, 2012

It's called the

Evergreen Open

Targets: 12 ga is first up. Additional targets are the gage/bore of your choice and as many as you want to shoot (within reason).

Flights: nominally 12ga at 0900 (short squads), 1000 and 1230(multi gage/bore). Nothing too stiff or formal here but we want to get in all the 12ga scores by lunch time.

Cost for targets and fees: \$18/100 for targets plus \$5 for NSSA/WSSA fees.

Awards will be given for the 12ga event only to class AA – E for first, second, third and so on till the entrants each have an award. But wait, there is more:

Entrants are responsible for bringing the awards, one per entry

Let's make each award worth about \$8. Something you'd be pleased to take home, preferably shooting related. Because you will take something home.

1. If you are really strapped for imagination, bring cash in an envelope.
2. NC shooters are not required to contribute to the awards pot.

Awarding the awards?

1. To the score shot for 12 ga, add: AA=0, A=1, B=3, C=5, D=9 and E=11. Yes, you will be able to exceed a score of 100 with this system. Perhaps the easiest 100 you'll ever shoot.
2. Highest ranked entrant picks first. Ties decided by coin toss.

Reporting of winners will be done by the usual NSSA procedures: **Champion and Class First** will be reported using actual scores shot. Ties for these titles will be decided by shootoff at Station 3/4/5 total by station or some other method agreeable to the agreeing parties.

NSSA 2012 Rules as recently modified will be in effect.

Registration will close at 11:30 more or less.

Referees. Squads may need to self-pull and self-referee their own targets pursuant to NSSA Rule IV-D-17. At best we will provide a referee/scorer. At second best we'll provide a scorer. At third best the squad will do it all. We still have pull cords and buttons.

How Do You Get Here? First, consider leaving a trail of seed corn to find you way back. From the confluence of State Rt 16 and State Rt 3 go 4 miles SW on State Rt 3 towards Belfair. We are on the right just past one of the last drive-in theaters left in WA. Remember that if you use

the Tacoma Narrows Bridge, the Governor will extract a toll eastbound unless you have a nifty Good-To-Go pass in which case the extraction is less painful.

Register in Advance by Email to Dennis Johnson at pshm139467@hotmail.com or ring him up at 360-275-6946 and speak smartly to the answering robot.

Ammunition is available but selection of brand, shot size, weight and drams will be limited.

Lunch: Perhaps you read between the lines that we'd be having a lunch break. Good reading. It will be something like lasagna, salad and bread for a \$4 donation. We'll draw for awards during lunch.

Fun Stuff: If anyone feels bored, we'll set up a chandelle and rabbit station. Remember we also have the duck tower available.

Thanks for perusing this. We look forward to seeing you.
